EDMONTON, ALBERTA, SATURDAY, JULY 8, 1905

No 156

CANADIAN NORTHERN

WILL BE HERE IN THREE MONTHS.

President Mann States That Trains Will Be Running From Edmonton to Winnipeg This Fall.

Winnipeg, July 8.—"The Canadian Northern will be into Edmonton in October," was the statement made by D. D. Mann, vice president of the road, who is now in the city looking into matters in connection with the establishment of terminals and the construction of the line. "Rail head is two hundred miles from Edmonton," he continued, "and much of this grading has been done. The laying of steel is progressing rapidly and with anything like decent luck we shall have trains in operation from Winnipeg to Edmonton this fall."

TEACHERS' EXAMINATIONS

The non-professional teachers' examinations are now going on at the High School. Inspector McGaig is in charge and is assisted by Mr. C. H. Russell, B. A. of Fort Saskatchewan. Thirty-eight teachers are writing in the standard VI; twenty-one in standard VII and nine on the standard VIII examination, a total of sixty-eight. With the exception of three or four these are from the local high school which speaks highly for the importance and volume of work done by the institution. Mr. Rea is presiding at Strathcona and Mr. Johnson is assisting Inspector Bryan at Calgary.

CHURCH SERVICES

Baptist—Mr. W. H. Parsons, International Y. M. C. A. secretary, will speak in the Baptist church on Sunday morning. In the evening Pastor McDonald will speak on "Some Distinctive Principles for which Baptists stand."

Grace Methodist church—Services at 11 and 7 by Rev. A. S. Tuttle. Children's service in the morning.

McDonald Methodist church—Services at 11 and 7, by Rev. G. H. Huestis. Meeting for men at 8 p.m., to be addressed by J. M. Parsons, Y. M. C. A. secretary.

Presbyterian—Services at 11 and 7, by Rev. D. G. McQueen. Men's meeting at 4 p.m., addressed by J. M. Parsons, Y. M. C. A. secretary.

—The control of the E. & N. line on Vancouver Island, will be under H. J. E. Bensley, the divisional superintendent of the C. P. R., with John Goodfellow, an assistant superintendent. All business relating to the steamboat service will be under the direct control of Capt. J. W. Troup. The care of the road bed will be in charge of W. S. Newman, who has been roadmaster at Revelstoke for years.

COUNCIL MEETING

DAY POWER IN NOVEMBER.

Grant of \$500 to Western Canada Immigration Association—Hoist Company's Agreement Discussed at Length

The city council met last evening in the council chamber. Mayor McKenzie was in the chair and all the aldermen present. The minutes of the last meeting were read and confirmed.

COAL CONTRACT

J. Montgomery, of the Edmonton Coal Co., waited on the council to request that his company be allowed to supply coal until September 1st, as when they got the contract last year there was enough coal on hand to last two months.

Alderman McLeod favored an extension as the company had had the former contract but put in too much. Alderman Clark asked if the present company had been restricted in putting in any amount, and he questioned if it would be wise to change the date of the contract. The mayor explained that a new contract had not been let as tests were being made of samples sent in by those tendering. It was moved by Ald. Greisbach and Clark that the matter be referred to the commissioners; Moved an amendment by Ald. Picard and May that the new contract start from August 1st. Aldermen May, Picard, Bellamy and Fraser supported the amendment and Aldermen Greisbach, Boyle, Clark and McLeod voted against. The mayor declared the amendment carried. It was explained that there was coal enough on hand to run the power house until August 1st, but the Edmonton Coal Co. might continue delivering as usual.

PLUMBING

MAKING ONE'S TOILET is a far pleasanter proposition if all the appointments are handsome and convenient. You can have them that way if you say the word. But say it to us.

WE ARE PLUMBERS who make a specialty of good work. We will make your bath or toilet room fit for a king or queen. Sanitary, too; perfectly so. And, as usual, our bill will be so small that you'll doubt our being real plumbers. But we are.

We are sole agents for Sutton Germ Proof filter.

J. A. LOCKERBIE & CO.

REFRIGERATORS

KEEP THIS MILK COOL AND THE BUTTER SWEET,

Our are air tight with cleanable glass and thorough cold dry circulation. All packed with mineral wool. Prices ranging from \$19.50 to \$37.50.

SATURDAY, JULY 8, 1905.

A CONSERVATIVE CONFAB.

Calgary Albertan: Hon. F. W. G. Haultain, premier of the Northwest Territories, is in the city. He was a visitor at the Calgary Fair yesterday afternoon.

Thomas Tweed, president of the Conservative Association of the Northwest Territories, also came in on No. 1 yesterday afternoon.

Other prominent Conservatives are in the city. It is expected that there will be a caucus of the leading conservatives of the province, when some definite action will be taken and that probably Mr. Haultain will make an announcement before he leaves the city.

SOME CURRENT EVENTS

Another period of that "ominous silence" has settled down over the theatre of the war. Unless history causes to repeat itself the curtain will rise again one of these days to the music of artillery and reveal the gory spectacle of another Russo-Japanese disaster.

From the only speeches of their touring delegates the people of Great Britain would be warranted in thinking the Canadian Manufacturer's Association was an organization existing for the purpose of extending the business of British manufacturers in Canada. As a matter of fact the association stands for the exclusion of all outside manufacturers so far as possible British or foreign. To this end it has repeatedly threatened the present administration, and failing in its threats has exerted its influence to the utmost to secure the defeat of government candidates. The Conservative contingent from Toronto tell us more faithful and reasonable story of the aims and accomplishments of the association than the pleasure hunting members of the association abroad. These rambling orators might if they would tell the British manufacturers what they did to the preferential duty on British wools—*but they have not done so.*

In the death of Secretary Hay the United States suffers what President Taft well referred to as a "National bereavement" and the world loses one who for a generation has been a power in the direction of its affairs. The late secretary received his schooling in public affairs as the private secretary of Abraham Lincoln. He became assistant secretary of state during the reign of Pres. Hayes. On the election of Pres. McKinley he was appointed ambassador to Great Britain and being transferred to the position of secretary of state in 1898, came prominently before the world in conducting the peace negotiations at the close of the Spanish war. In company with Lord Penicuik he was instrumental in securing the abrogation of the Clayton-McKellar treaty and in making a new Isthmian canal treaty with Great Britain. For several years while not in public life he was an editorial writer on the New York Tribune. To his two he contributed Pike County Ballads and Castilian Dyas, beside being joint author of a biography of Lincoln.

There are five Conservative members from the west on the Railway Committee and only five of these voted for the maintenance of the C.P.R. monopoly by opposing the charter of the V. V. & E. railway. Their plausible ground was that it would be impracticable to allow an American road to cross the boundary. That the C.P.R. extends its lines into America territory whenever and wherever there is promise of dividends, regardless of the millions of acres in the North West which have been useless for years because of lack of railway facilities, does not prevent their corporation and its friends dimming the sire of the ultra-patriot when a competing road appears on the Canadian side of the line. Has anyone in the province of Ontario objected because a portion of that province is traversed by the Michigan Central? The people in the portion of British Columbia most directly and intimately concerned in the V. V. & E. proposition are manifestly enthused.

astic in their demands for it and the B.C. members of the House voted for the bill in a body. They were of course supported by the North West Liberals who voted for the bill for a man.

ABOUT EDMONTON

(Trade Gazette Calgary.)

A man who knows Edmonton tells us a few things more about the progress of that promising place. He declares that what was called the boom of last year and of 1903 has not subsided, but the place has gone on to grow, and its people to show their faith in it. Jasper avenue, he says, will before next winter set in a handsome street. The Bank of Montreal building, on a corner lot, is already an ornament to the place, and the Bank of Commerce has an excellent site. Now, he tells us, the Merchants' Bank is about to erect a very fine three-story building on the corner of Jasper and Howard, where the frame warehouse of the Massey-Harris company now stands. Further east the firm of McDougall & Scord, who now have nearly finished the Empire Block, one of the handsomest store and office buildings in Canada, will commence the erection of a substantial three-story store and office block.

The well known firm of Revillon Brothers Limited, have let a contract for a brick warehouse, 100x150, next to their present four-story wholesale warehouse, thus making the firm's wholesale building 150 feet square. It is understood that this firm intends in the near future to erect a truck warehouse. Then four store blocks in block 2 are well advanced.

Besides these structures for commercial purposes there are others contemplated for instance the religious body known as the Reverend Sisters of Mercy are putting up a new building for their maternity hospital at a cost of \$10,000. Extensive improvements are in view to All Saints' church, costing about \$3,000, to provide more seating capacity. The new Baptist church, which will be a handsome and comfortable structure, is well under way. Early commencement of the terminal buildings of the Canadian Northern Railway is expected. Many smaller buildings and numerous comfortable and substantial residences are being arranged for. A feature which strikes any observer is the substantial and handsome nature of most of the business buildings. It is also a matter of course that residences, both of the modest sort and not a few, of superior character, are going up. The people of the town believe in a bright future for it.

TO VISIT SCOTLAND.

Mr. and Mrs. Hugh McKay, who live about two miles from the city, are leaving on Tuesday next for a visit to the old land. It is thirty-two years since Mr. McKay left his native land and he is looking forward with not a little pleasure to his visit to the heather hills of Sutherlandshire.

Mr. and Mrs. McKay came to the Edmonton district twenty-four years ago and by their industry and thrift have made a competence for themselves. They will sail from Montreal on July 21st on the Virginian and will be absent for about three months.

EDMONTON TEAM WON LAST NIGHT.

The Capitals defeated the Calgary baseball team last night 2 to 0. This leaves the teams each with a game and the "rubber" will be played at 5 p.m. today.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations in the time it is in good condition. It will travel 4,558 miles in a year and requires less than one tenth of a drop of oil to make it run. But it needs that little badly. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay you and satisfy you.

THE NEWS OF THE DAY**IN CONDENSED DESPATCHES**

Brief items from many sources tell the story of the day's events.

WOUNDED IN A SHAM FIGHT.

Kingston, July 7.—During a sham battle on Barriefield Heights today, Trooper Anderson, D Squadron, Fourth Hussars of Prescott, was shot in the flesh part of the thigh. A serious wound resulted. The rifle was in the hands of a companion.

THE FIRE IN HAMILTON.

Hamilton, July 7.—The brick building on Sherman Avenue erected five or six years ago, for the Hoepfner Nickel & Copper Co. at a cost of \$340,000, was destroyed by fire tonight. The fire started on the second story and gained such rapid headway that the firemen were only able to confine the flames to the building. The building was erected to refine nickel by Dr. Hoepfner's process but it proved too expensive. The Ontario Nickel and Copper Co. was later organized to take over the business after Dr. Hoepfner was deposed. Experiments were continued, but the plant was never operated. \$600,000 to \$600,000 was lost in the enterprise; no insurance.

TURKEY MAKES A MOVE.

Constantinople, July 8.—The Turkish council of Ministers has resolved to dispatch all available warships to the entrance of the Bosphorus and heavy guns which were not previously mounted owing to the objections made by the Russian Government.

FALL WHEAT IN THIS DISTRICT.

Mr. A. B. Campbell, of the Dowling Mills Co., informs the Bulletin that there are about 560 acres of fall wheat to be harvested in this vicinity this year and in every case the promise of a good crop is evident. The wheat stood the winter well and the spring frosts had no effect whatever on it. About two hundred acres will be harvested on Stony Plains, and about 150 acres each in Sturgeon and Horse Hills district, making in all 500 acres.

Dan Erer, of Spruce Grove, has the largest area sown, some 60 acres, and Mr. S. Mitchell of the Sturgeon district, has 52 acres. Jno. A. McPherson, of Spruce Grove, and Joe Wilson, of Horse Hills, have about 40 acres each, and David Crozier, of Namayo, has 25 acres.

Mr. Campbell says that experiments show that fall wheat must not be sown later than August 1 to ensure the best results, and the very best crops have been from fields sown about July 26. The late sowing is generally a failure. Almost all the wheat in this locality is the Turkey Red variety, and is grown from seed brought here by the Dowling Milling Co. This company brought in the best fall wheat for seed some three or four years ago, but farmers have been slow in gaining faith in it, as a crop. It has now been clearly demonstrated, however, that the growing of fall wheat is profitable here, and, if seed can be obtained, there is a probability that the present acreage will be doubled this year.

MISCELLANEOUS**TO SEWER CONTRACTORS.**

Tenders are requested for the labour required in the construction of about three miles of pipe sewers on Eleventh street to Second street and extending from Saskatchewan avenue northward.

Forms of tender, plans and particulars on application at the Office of J. H. Hargreaves, Civil Engineer. Second term to be addressed Public Works Commissioner, Edmonton, to be delivered not later than Thursday, July 13.

The lowest or any tender not necessarily accepted.

G. J. KINNAIRD,
Secretary-Treasurer,
Edmonton, Alta., July 7, 1905.

dy 156-158 chg.

The conditions under which

Pharaoh Cigar

is made are ideal.

We have a contented little community of our own, that is not worried by outside conditions. The wholesome, country-town life that we live, tells in the quality of our work.

Every employee in my factory has his whole heart in his work. From the oldest workman, who started with me when I had a small room for a factory, a big bunch of enthusiasm and a high idea of quality, down to the lad who just joined us the other day, every one is putting the best that is in him into his work.

Under such conditions it is no wonder that my Pharaoh is the best ten cent smoke on the market. We are all working with the one object—to produce the best cigar possible.

I go to Cuba every year and buy the best tobacco produced. I know that every leaf that comes to my factory is right. My workmen see that every roll they give it will help make it a perfect, even-burning smoke. It's a combination that's hard to beat.

None genuine unless branded "Pha-ro." Price 10 cents.

The News in Brief.

The population of Chicago is 2,272,760 according to the city directory for 1905.

It is generally expected that Medicine Hat will be the headquarters for the Stratocoma Horse.

At Henley in the final heat for the Grand challenge cup the Leander crew beat the Belgian crew.

The Right Rev. Maxime Decelles, Bishop of Hyacinthe died at his home in St. Hyacinthe at 12:55 yesterday morning.

A by-law to raise \$35,000 for a municipal electric light plant for Napanee, Ont. was voted on yesterday and carried by a majority of 210.

As the result of trouble over a girl named Flynn, John McMenamy of New Glasgow, N.S. was shot and killed by John Ferguson, a foreman on the *C. R.* at Stellarton.

The St. Petersburg Bourse Gazette considers that the war is over, and that a battle, after what has been accomplished by President Roosevelt, would be an anomaly.

The telegraph operators on the lines of the G.N. and N.P. have issued an ultimatum that if their demands regarding salaries and hours are not granted a general strike will be called.

The new Australian Cabinet is—Prime minister and minister of internal affairs, Alfred Deakin, Attorney General, Isaac Alfred Isaacs; Minister of Trade and Customs, Sir Wm. Lyne, "Treasurer, Sir J. Forrest, Postmaster General, Mr. Chapman, Minister of Defence, Senator Playford, Minister of Home Affairs, Mr. Groom, President of the Executive Committee, Mr. Ewing.

—Mr. A. B. Perkins, of Charlottetown, P. E. I., is in the city. Mr. Perkins is of the firm of F. Perkins & Co., and he informed the Bulletin that after looking over the west, his firm has decided to come to Edmonton to engage in the dry goods business. The firm is a progressive one and will be an acquisition to the business community of our city.

MADE BY HAND

I HAVE each
Pharaoh cigar
rolled by hand!
I do this in
order that the
leaves that go
into the filler may be properly
placed, with the top towards the
burning end of the cigar.

It also enables the packing of
the filler to be properly done—
you will find my Pharaoh will
smoke easily and evenly from
end to end!

I see that the materials are
of the highest grade as well.

Cuban tobacco I myself
select from the Manicuragua
district, in the Province of Santa
Clara, is the filler—the most
expensive Connecticut Broad-
leaf is the binder, and a clear,
beautiful Sumatra I import from
Holland is the wrapper.

My Pharaoh makes a
mighty good smoke for the
money.

City Council.

Continued from page one.

W. C. T. A. GRANT.

A deputation from the board of trade consisting of Messrs. John A. McDonald, F. T. Fisher, J. Garlepy, and A. B. Campbell and Mr. E. E. Page, of Western Canada Immigration Association waited on the council in reference to a grant of \$500 to the said Association.

Mr. McDonald speaking for the board of trade pointed out that this association had become a useful organization for the promotion of immigration. It was supported by the Dominion Government, the Manitoba Government, and all the great railway companies. He spoke of the recent press excursion conducted by this association and said we could hardly overestimate the value of such a visit.

Mr. F. T. Fisher, secretary of the board of trade, corroborated what Mr. McDonald had said and stated that the need for the grant was obvious. After a very brief discussion on motion of Ald. Greisbach and May the request of the board of trade was granted.

MISCELLANEOUS.

A copy of a letter of complaint against railway fares from the exhibition association to the C. P. R. was read. On motion the letter was placed on file.

A request for the fixing of a day for nomination for a trustee for St. Joachim's Separate School was read and on motion the request was granted.

A communication was read from the Editor in Chief of the Ladies Edition of the Journal asking the council to purchase a number of the papers for advertising purposes. On motion of Ald. Bayre and Clark the communication was referred to the board of trade.

A communication was received from McFarall and Scord asking when the 24 hour service of electric current would be given as they wished to install electric elevators in their store and in the Empire Block. This brought up the question of day current and it had a sort of electric effect on some of the aldermen. Aldermen McLeod and Hellyer met like the poles of a galvanic battery and a few sparks were noticed, but the real electric shock occurred when Ald. McLeod encountered Ald. May.

Aldermen Clark and Picard moved that McFarall and Scord be notified that after November 1st next the city will furnish a 24 hour electric service in support of this motion Ald. Clark pointed out that in November the dynamos would be running the greater part of the day anyhow and that was the time to start. Ald. May said it might not pay at first but if we were to build up a business in power we must furnish it before we could get customers. Ald. McLeod said the revenue from the present partial day power was so small it was not paying and should not be run. Ald. Fraser was opposed to day power for the present. Aldermen Picard and Boyle favored granting day power as the only way in which to build up business in it. The motion was voted upon and carried.

It was then moved by Aldermen McLeod and Fraser that all day power be discontinued from now until November 1st. The motion was lost only the mover and seconder supporting it.

PARK SITE.

A communication was received from Wm. Short asking that negotiations be opened between the council and the Hudson's Bay Company relative to the purchase of certain hillside property for park purposes. On motion of Aldermen Clark and Greisbach the matter was referred to the commissioners to have the property delineated and to ascertain the price of same.

ALD. McCLEOD RESIGNS.

The resignation of Ald. McLeod was then read, said resignation to take place on August 1st. It was moved by Aldermen Clark and Fraser that the resignation be referred back to Ald. McLeod with a request that he withdraw the same. Ald. McLeod said he had quite made up his mind and such request was useless. The mayor and Ald. Boyle expressed the hope that Ald. McLeod would yet withdraw the resignation. The motion was carried.

A report was presented by the finance committee to the effect that A. C. Neff, of Toronto, accountant, had been employed to report on the accounts of the city. The report was adopted.

It was moved by Aldermen Greisbach and May that the money by-laws, now ready to be submitted, to the ratepayers be submitted without further delay. Carried.

Moved by Aldermen Clark and Boyle that finance committee's report be adopted and account be paid if found to be properly certified to.

Ald. May asked why work of installing water and sewer system had not been gone on with on Fraser avenue as per petition. It was explained it would be gone on with at once.

The question of the company which wants an agreement to construct a hoist for teams and freight on the hill side. The company had asked for a bonus of \$500; it was moved by Alderman McLeod and Fraser that this council is opposed to bonusing the scheme. The motion was lost, a number of the Aldermen explaining that they were not perhaps favorable to a bonus but they wanted to give the matter further attention before pronouncing upon it. The agreement prepared upon this matter was read and discussed at some length.

Some amendments were suggested and finally the matter was referred back to the promoters of the hoist for their acceptance of the modified agreement, and the matter will be taken up again.

The following are the payments recommended by the Finance Committee.

CENTRAL ALBERTA**ITS RESOURCES AND PROSPECTS**

Edmonton as a Railway Centre—Resources of Central and Northern Alberta.

Following is an article written by F. T. Fisher, secretary of the Edmonton Board of Trade and published in the current issue of Masters' Weekly:

In the great stretch of country from the Red River to the Rocky Mountains, as seen from the window of a C.P.R. train, the feature most noticeable to the average traveller is the absolute monotony of the landscape. This impression is accentuated after the treeless plains of Western Assiniboina and Southern Alberta are entered upon. It is, therefore, usually a matter of surprise to the traveller who takes the train north from Calgary for the first time to find the country gradually assuming a more cheerful aspect as he approaches the rich lands of the North Saskatchewan Valley. On arrival at Edmonton the view across the river is one which would be considered beautiful in any country. The broad Saskatchewan winds in sinuous curves along a valley some two hundred feet deep and perhaps a mile in width, the sides of which are clothed with a dense growth of poplar and birch, interspersed with the deeper and richer green of many tall spruce trees. The city of Edmonton, like its younger sister Strathcona, looks down on the scene of beauty from the heights above. The beauty of its site, with the pure air and magnificent climate of Central Alberta, make Edmonton an attractive place to live in.

Owing to the great natural resources of the Edmonton district, the progress of Edmonton has been steady and rapid, and today, including the adjacent municipality of Strathcona—separated only by the river—Edmonton has the largest population of any place in Western Canada between Winnipeg and the Pacific coast. Central Alberta, which may be said to include the country from the Red Deer to the Athabasca, has only one hundred and fifteen miles of railway, and for years after the C.P.R. was built, none at all; while Southern Alberta, of which Calgary is the centre, has some eight hundred and thirty miles. Yet the population of the central section of the new province, with Edmonton as centre, has become greater than that of Southern Alberta. Obviously such a thing, which is contrary to all the recognized rules of development of new countries, could not have happened unless there were some unprecedented natural advantages in favor of Edmonton.

The Grand Trunk Pacific and Canadian Northern Railways were both quick to see these natural advantages, and both have undertaken to make Edmonton the chief divisional point between Winnipeg and the coast. In view of the progress already made it does not seem unreasonable for Edmonton people to expect very much more rapid development of the district when opened up by the two great trunk lines and the feeders which will follow. Edmonton will then be second only to Winnipeg as a railway centre, and will offer special opportunities to manufacturers and wholesalers, as the natural distributing point for an enormous tract of rich country. Though the Edmonton district has hitherto been known on account of the richness of its lands, which compare favorably with the best portions of Manitoba, such as Portage Plains, it is quite possible that in the near future a large industrial development will take place. High grade coal, in practically unlimited quantities, underlies a large portion of the district. This is so easily mined, even with the somewhat primitive methods at present employed, that it is delivered to the citizens for domestic use at \$3 a ton, and stock of good steaming quality is delivered to the mills and factories at about \$1.35. Such a cheap source of power surely must prove attractive to manufacturers.

Then there is the extensive oil deposit that has been discovered at Egg Lake, near the city. The company which has been quietly working there has demonstrated beyond room for doubt that oil is there in enormous quantities. This is not illuminating oil, but petroleum, with an asphaltum base, said to be similar to that found in California. This deposit has unlimited possibilities as fuel, and for road-making purposes.

This district contains very extensive deposits of marl, suitable for making Portland cement of high grade, and some eastern capitalists

are now interested in the possibilities in this direction. Iron is known to exist in very large quantities, and its development is only a matter of time. Natural gas is known to underlie the city, and probably the whole district, and a company is now engaged in boring operations.

Edmonton has already attained considerable importance as a milling centre. There are already five flour mills in operation within a few miles of the city and one is building at St. Albert, nine miles away. A strong company has just been formed for the erection of another mill in Edmonton.

Besides being the natural business centre for the rich country surrounding it in every direction, Edmonton is, and must remain, the base of supplies for that vast territory—large enough for an empire—stretching away to Fort McPherson, within the Arctic circle, and embracing Lake Athabasca, Great Bear Lake, Great Slave Lake, and the great navigable waterways of the Peace, Athabasca and McKenzie Rivers. Edmonton's title as the "Gateway of the Northwest" is, therefore, well founded.

When one understands the great natural resources of the Edmonton district, and the remarkably advantageous position as a shipping centre which Edmonton will occupy in the near future, one is no longer surprised at the rapid growth which is taking place in the city and the massive office buildings and business blocks which have recently been built or are under construction, and which strike the easterner as out of proportion for a town of this size. The men who are putting their money into these buildings, however, are doing so with a full knowledge of the conditions; and it is questionable if even the present rate of building can keep ahead of the demand for increased business facilities.

JUNE VITAL STATISTICS

There were twenty-one births and eleven deaths recorded with Registrar Jelett during the month of June. Of the deaths, three were from consumption, one each from inflammation of the lungs, cerebral hemorrhage, still born, and hemorrhage of the brain, and five from causes unknown.

Twenty couples were made happy in wedded bliss. The youngest is a blushing bride of 12, and the oldest a staid groom of the mature age of 64. The following is a list of the marriages as recorded:

Harvey Spencer Santrock, of Lac Ste. Anne, and Edith Lapp, pf. Edmonton, by Rev. D. G. McQueen.

John Philip Fisher and Margaretta Eichenlaub, both of Stony Plains, by Rev. W. Lusky.

Johnna Marciwiruk, of Beaver Creek and Christina Guscicka, of Edmonton, by Rev. O. J. Dydyk.

Wallace Sanders, of Conjuring Creek, and Marie Richards, Reed, Minn., by Constance H. Hincks.

Malcolm McKeown and Catherine Elizabeth McLaurin, both of Edmonton, by Rev. D. G. McQueen.

Daniel Steffler and Louise Willie, both of Stony Plain, by Rev. Edw. Wolf.

John Willie and Emma Weber, both of Stony Plain, by Rev. Edw. Wolf.

Unton Olshansky, of Josephsburg, Assin. and Emilia Day, of Bruderheim, Alta., by Rev. Abraham Hager.

Jonathan W. Dodds, and Elizabeth Schaefer, both of Edmonton, by Rev. Abraham Hager.

Percy Hugh McCallum and Christina Rattray, both of Edmonton, by Rev. John Baird.

Stephen B. J. Ferguson and Elizabeth M. Mayle, both of Edmonton, by Rev. John Baird.

Samuel Scralge, of Strathcona, and Annie Deschamps, of Edmonton, by Rev. O. J. Dydyk.

Henri Flavien Nadeau, of Dinsdale and Corinne Marie Nadeau, St. Césaire, P.Q., by Rev. O. Jan.

Peter Fest, of Spruce Grove, and Helen Myrtle Hagan, of Winterburne, by Rev. John Baird.

Board of Trade:—President, A. B. Campbell, Vice-President, A. T. Cushing, Secretary, F. T. Fisher.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7:45 and 15:30. Arrives from Strathcona 9:15 and 10:50.

LOCAL

—Lacrosse practice tonight.

—A gang of men are opening a coal mine in the hillside near Walter's mill.

—The Orange men of the district will celebrate on Wednesday next by a picnic in the north end of the city.

—A meeting of the young men of the parish of St. Joachim will be held at the mission after the service tomorrow.

—Bevilion Bros. of this city, have generously donated \$200 to the funds of the Western Canada Immigration Association.

—F. H. Dobson, B.A., well known in Edmonton, has severed his connection with the teaching staff of the Strathcona high school.

—A cricket match is being played this afternoon by teams representing the districts lying east and west of Sixth street, H. B. R. I.

—The hoist company are making preparations to go on with their work. The steel rail and other material is expected to arrive today.

—Mr. Hugh McKay brought in a bunch of oats to the board of trade rooms yesterday, measuring three feet. This grain has grown eighteen inches since the 17th of June.

—J. M. Parsons, western secretary of the Y. M. C. A. will conduct a meeting for men only in the Presbyterian church at 4 p.m. tomorrow and an evangelistic service for men in McDougall church at 8 p.m.

—John Robinson's whereabouts for the next three months was fixed for Fort Saskatchewan at the police court this morning. Robinson sold a buggy belonging to R. J. Kelly and pocketed the money to his own purpose.

—Mr. D. R. Birch representing the International Magazine Association of New York is in the city advocating the Redpath Library, or Universal Literature. This is a comprehensive work of great value to anyone interested in the world's literature.

—The Ladies' Aid Society of the public hospital wish to thank all ladies who contributed to their booth at the fair, also those who so kindly patronized their place. They cleared over \$800 in all of the hospital, which is very creditable indeed.

—On Monday, July 17, the Peerless Entertainers give a reproduction of the Passion Play, by means of stereopticon views in the rink theatre. Other interesting series of pictures will also be shown. The entertainment will be in aid of St. Joachim's church.

—In a private letter to Mr. E. A. Page, Theo. M. Knappan, secretary of the Western Canada Immigration Association, said: "Tell all the Edmonton friends how much the Association, the members of the party, and I personally, appreciate the comfortable entertainment they gave the excursion."

—Probs.—Moderately warm weather prevailed in all districts yesterday through the temperature was several degrees lower than last report and turned quite cool during the night at many points in Manitoba. There were light showers in Alberta, and the western part of Assiniboin. It will be fine and comparatively cool today and on Sunday.

—Morrel's Weekly is the name of a new periodical published in Winnipeg. The new weekly is a magazine rather than a newspaper and its pages are devoted to stories and articles of Western life and progress. The Weekly is well printed and illustrated and should be able to find a permanent and profitable place among Western publications.
